I DON'T CARE IF IT RAINS OR FREEZES, AS LONG AS I HAVE MY JAVA ME JESUS

Webalo has released a new Mobile Dashboard that lets you push corporate data to Java ME smartphones.

See:

[Using Java ME for your Mobile Dashboard](#)

Here's a quote:

The Mobile Dashboard allows administrators, working from a Web browser, to configure mobile users of devices such as RIM BlackBerry, Microsoft Windows Mobile, Palm Treo, and Java-enabled smartphones to receive pre-existing, internal reports from
